Healthcare CRM Platform

Smart Patient Management & Clinic Automation System

Digitize, Automate & Grow Your Healthcare Practice

Challenges Clinics Face Today

- **Manual patient records** leading to misplaced files and data loss.
- **Missed appointments** causing significant revenue leakage.
- **Disorganized prescriptions** leading to pharmacy errors and delays.
- **Poor patient communication** and follow-ups post-consultation.
- **Lack of analytics** and data-driven insights to measure growth.
- **Inefficient billing systems** extending wait times at reception.

All-in-One Healthcare CRM

A unified platform designed specifically for modern clinics to manage every aspect of healthcare delivery seamlessly.

- Patient Management
- Smart Appointments
- Digital Medical Records
- E-Prescriptions
- Automated Billing
- Growth Analytics

How the System Works

1. Registration

Instant digital patient onboarding.

2. Booking

Online & reception appointment scheduling.

3. Consultation

Doctor reviews history & examines.

4. Prescription

Digital Rx sent via WhatsApp/Email.

5. Billing

Automated invoice & payment processing.

6. Analytics

Track follow-ups & revenue metrics.

Core CRM Capabilities

Patient Hub

Complete management of patient profiles, family accounts, and digital consent forms in one centralized location.

Smart Scheduling

Advanced appointment booking, doctor slot management, and automated no-show tracking.

Electronic Records

Secure digital medical records, comprehensive visit histories, and secure file uploads for lab results.

Digital Prescriptions

Customizable prescription templates with automated PDF generation and refill tracking.

Billing & Invoicing

Seamless GST-compliant billing, payment link generation, and daily collection reports.

Patient Engagement

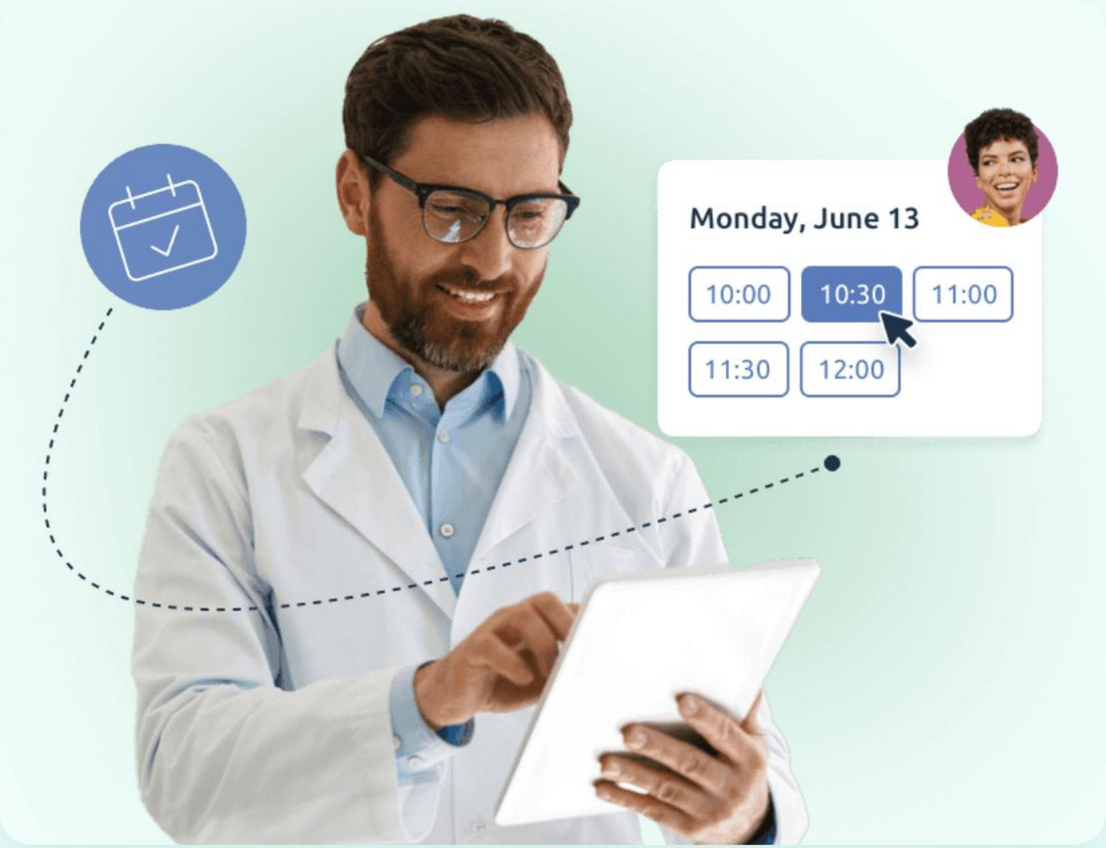
Automated WhatsApp reminders, email notifications, and integrated patient feedback system.

Smart Patient Management

- **Unified Patient Profiles:** Access demographics, vitals, and billing history on a single screen.
- **Medical History Timeline:** Visual chronological representation of the patient's entire health journey.
- **Quick Search Engine:** Find patient records instantly using name, phone number, or patient ID.
- **Family Accounts:** Link family members under a primary account for easier appointment and billing management.

Smart Appointment Scheduling

- **Doctor Slot Management:** Easily configure availability, breaks, and leaves for multiple practitioners.
- **Online Booking:** Provide a dedicated web link for patients to book their own appointments 24/7.
- **Drag & Drop Rescheduling:** Adjust appointments instantly within the calendar view.
- **Automated Reminders:** Reduce no-shows drastically with automated SMS and WhatsApp alerts.
- **Waitlist Management:** Automatically fill canceled slots by notifying waitlisted patients.



Digital Medical Records

Transition to a paperless clinic with secure, accessible, and comprehensive digital records.

Consultation Notes: Quick entry fields for chief complaints, diagnoses, and treatment plans.

Visit History: Instant access to past visits to understand patient progress.

File Uploads: Securely attach lab reports, X-rays, and external documents directly to the profile.

HIPAA-Ready: Ensure patient data privacy with enterprise-grade security protocols.

Smart Prescription Management

Prescription Templates

Save time by creating reusable templates for common diagnoses. Auto-fill medications, dosages, and instructions with a single click, allowing doctors to focus more on the patient than the paperwork.

Auto-Generated PDFs

Automatically generate professional, branded PDF prescriptions featuring the clinic's logo, doctor's electronic signature, and clear, legible instructions that eliminate pharmacy errors.

Instant Sharing

Go entirely paperless by instantly sharing the digital prescription directly to the patient's WhatsApp or Email immediately after the consultation concludes.

Refill Tracking

Systematically track medication durations and automatically alert both the doctor and the patient when it is time for a medication refill or a follow-up consultation.

Billing & GST Invoicing

- **Automated Invoice Generation:** Instantly convert consultation and procedure charges into professional invoices.
- **Payment Tracking:** Monitor pending dues, partial payments, and advance collections seamlessly.
- **GST Compliant:** Automatically calculate taxes and generate GST-compliant bills required for insurance claims.
- **Digital Receipts:** Send payment receipts instantly via SMS or Email to patients.
- **Export Financial Reports:** Download daily collection, outstanding dues, and revenue reports in Excel format.

Modern digital billing payment medical clinic

Patient Communication Tools

Appointment Alerts

Automated reminders sent 24 hours and 2 hours prior to the appointment, significantly reducing no-shows and optimizing doctor time.

Follow-up Tracking

Automated alerts prompting patients to book their required follow-up visits, ensuring continuity of care and better health outcomes.

WhatsApp Integration

Deliver prescriptions, invoices, and lab results directly to the platform patients use most, enhancing convenience and engagement.

Patient Feedback

Automatically request reviews post-visit to measure patient satisfaction and improve your clinic's online reputation and service quality.

Clinic Performance Insights

Our analytics dashboard transforms raw data into actionable insights, helping administrators track growth, optimize doctor schedules, and maximize clinic profitability.

Flexible Pricing Plans

Features	STARTER	GROWTH (Most Popular)	PRO
Pricing	**₹999 / month**	**₹2,499 / month**	**₹4,999 / month**
Patient Capacity	Up to 500 patients	Unlimited patients	Unlimited patients
Core CRM & EMR	Basic Features	Advanced Features	Advanced Features
Reminders	Email Only	WhatsApp & SMS	WhatsApp & SMS
Management	Single Doctor	Staff Management	Multi-location Support
Advanced Tools	✕	Analytics & Reporting	API & Audit Logs

Security & Data Protection

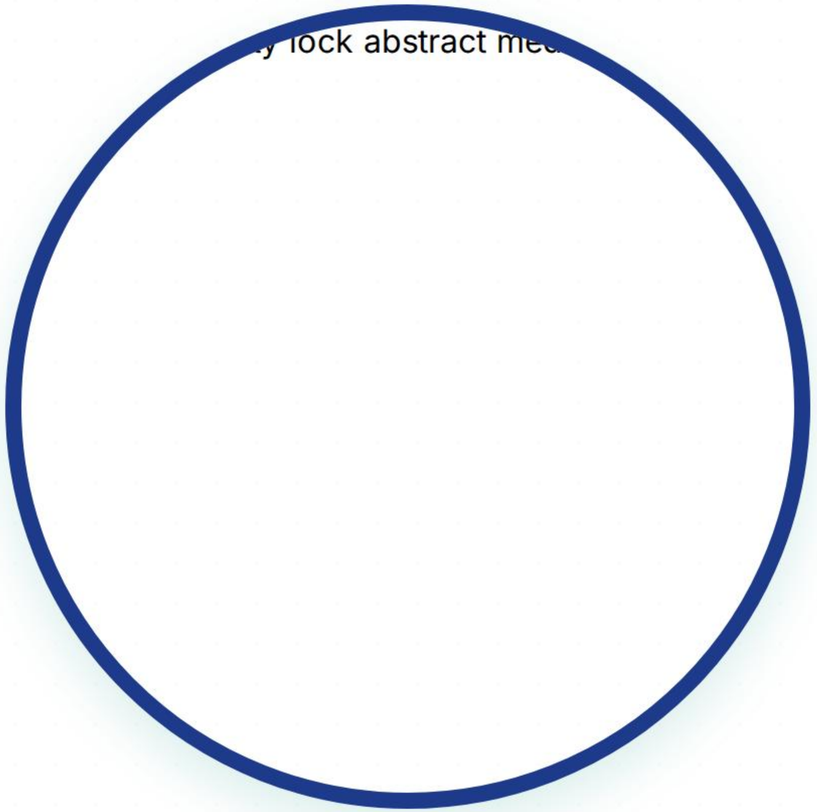
Role-Based Access: Granular permissions ensuring staff only access data necessary for their specific roles.

Data Encryption: End-to-end 256-bit encryption for all patient health information in transit and at rest.

Multi-Tenant Architecture: Complete logical isolation of your clinic's data on secure cloud servers.

Audit Logs: Comprehensive tracking of who viewed or modified patient records, ensuring full accountability.

HIPAA-Ready: Infrastructure built to comply with international health data privacy standards.



Key Advantages

Fully Cloud-Based

Access your clinic securely from anywhere, on any device—no local servers required.

Highly Scalable

Grows seamlessly with you, from a solo practitioner to a multi-location hospital chain.

Automation Reduces Manpower

Automated reminders and billing reduce front-desk workload and human error.

Data-Driven Insights

Make informed decisions based on real-time footfall, revenue, and clinical metrics.

Easy Integration

Seamlessly connects with existing lab software, accounting tools, and pharmacy systems.

User-Friendly Interface

Intuitive design ensuring zero learning curve for doctors and clinic staff.

Easy Onboarding

Dedicated Setup

Our success team configures your account and imports existing patient data.

24/7 Support

Continuous technical assistance and enterprise customization availability.

14-Day Free Trial

Experience the full capabilities risk-free with zero commitment.

Staff Training

Comprehensive onboarding sessions for doctors, receptionists, and management.

Future Roadmap

AI Patient Insights

Predictive analytics for patient health trends and AI-assisted preliminary diagnosis suggestions based on EMR data.

Telemedicine

Native, secure high-definition video consultation capabilities integrated directly into the appointment booking flow.

Insurance Integrations

Direct API connections with major health insurance providers for seamless, real-time claim processing and approvals.

Pharmacy Integrations

Directly route digital prescriptions to partnered local and online pharmacies for immediate patient fulfillment and delivery.

Transform Your Healthcare Practice

Digitize Your Clinic. Improve Patient Care. Grow Faster.
